PERSONAL STATEMENT

I am legally authorized to work at the U.K. with Tier 5 visa.
I have a passion and industrious, versatile and proactive approach to work, enabling me to adapt to different situations easily. Including, but not limited to, knowing clients' requirements, creating the web and translate designs into front-end interfaces, developing websites, cooperation and communicating with the team members and clients, and presents ideas effectively. I also enjoy challenges and responsibility in progressing projects from inception to completion. Nothing beats the sense of achievement I get when a project gets completed on time, within scope and budget. This enables me to be effective as a team player and as an individual.

KEY SKILLS

- Programming languages including: HTML 5, JavaScript, CSS, C#, .Net Framework(C#, MVC, VB.NET, WebForms).
- Knowledge of UI, UX design expertise.
- Collaboration in multi-disciplinary team and multinational cooperation that includes other developers, project managers, and clients in both Mandarin and English.
